PROFESSIONAL EXPERIENCE

Timeless Ventures, Frontend Developer

06/2025 - Present

(Promoted from Frontend Intern, 01/2025 – 05/2025)

- Owned and shipped core frontend features for Recollect, a bookmarking SaaS, building production-ready interfaces and API integrations with Next.js, Supabase, and REST APIs, which improved user satisfaction and had a lot of good feedback especially on the UI side and on how smooth the app felt to use.
- Supported the public launch of Recollect, contributing to onboarding **~500 users** and enabling creation of **20,000+** bookmarks within the first week.
- Managed deployment workflows for frontend applications, ensuring reliable releases and smooth production rollouts.
- Developed scalable, reusable UI components and collaborated closely with product and design teams to translate requirements into shipped features.
- Built and launched the company marketing site (**timeless.co**) using Next.js, serving **~450** daily visitors and implementing SEO best practices such as semantic HTML and metadata optimization.

Sthai Software, Cloud Computing Intern

06/2024 - 07/2024

- Developed a web application with React Native and Node.js that calculates financial returns from **S&P 500 data**, enabling users to quickly assess portfolio performance
- Implemented backend services with Node.js, REST APIs, AWS Lambda, DynamoDB, and RDS, reducing server-maintenance effort and improving data-retrieval speed.

Leiper Books, Flutter Intern

07/2023 – 12/2023

- Enhanced application features in the **Leiper Books Flutter app**, contributing to improved usability and feature completeness.
- Wrote automated tests and optimized UI flows, improving application performance and user experience.

SKILLS

Frontend : React, Next.js, TypeScript, JavaScript, HTML5, CSS3.

Backend & APIs : REST APIs, Supabase, Firebase, SQL, NOSQL, Django, Django REST Framework, Node.js.

Mobile Development: React Native, Flutter, Expo.

Cloud And Dev Ops: AWS (Lambda, DynamoDB, RDS), Docker, Deployment & Release Management.

Tools And Workflows: Git, GitHub, CI/CD, Agile Collaboration.

PROJECTS

Wersute

- Designed and developed a full-stack web application from scratch, onboarding 300–400 users within the first month.
- Implemented real-time chat functionality, secure payment workflows, and RESTful APIs to support core product features.
- Built frontend interfaces using React and developed backend services using Django and Django REST Framework.
- Tech Stack: React, Django, Django REST Framework

Edu Hub

- Built a mobile-based education platform enabling students to share notes and question papers with upvoting, downvoting, and favorites.
- Implemented an AI-powered feature to identify frequently repeated and high-priority questions by analyzing stored academic data.
- Designed backend data models and authentication using Firebase to support scalable content sharing.
- Tech Stack: Flutter, Firebase, Gemini

EDUCATION

B.Tech in Computer Science Engineering, Cochin University of Science and Technology

2021 – 2025

CGPA: 8.0

LANGUAGES

English, Tamil, Hindi, Malayalam
